"Where the Children Find Their Way"

## After School Programs

LCLC offers various programs for our students that are 3-5 years old. Some of our enrichment instructors may take children that will be turning 3 during the school year. The individual program instructors will let you know what their policies are in regards to their programs.

### Enrichment Programs

Enrichment programs are designed to give our students different activities that they can participate in to explore individual talents and interests. These programs are contracted through different instructors. The students will stay after school and the instructors will pick them up from their classes. You will pick them up at 1:00 in the designated area.

Program	Day	Time
Karate	Mon/Wed	12:30-1:00
Creative Movement/Ballet	Mon	12:30-1:10
